"The FUTURE is a concept, it doesn't exist.
There is no such thing as TOMORROW.
There never will be, because
TIME is always NOW.
That's one of the things we DISCOVER
when we STOP TALKING to ourselves
and stop THINKING.
We find there is only
PRESENT,
only an ETERNAL NOW."

- Alan Watts

Time is a social institution and not a physical reality. There is no such thing as time in the natural world - the world of stars and waters, clouds, mountains and living organisms. There is such a thing as rhythm - rhythm of tides, rhythm of biological processes... There is rhythm and there is motion. Time is a way of measuring motion.
